

THE REJECTION

Claims 5-8 and 16 are objected to under 37 CFR 1.75(c) as being in improper form because of multiple dependent claim limitations.

Claim 18 is objected to for informalities.

Claims 11-17 are rejected under 35 U.S.C. §112 as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

Claims 11 and 12 are rejected under 35 U.S.C. §102(b) as being anticipated by Kuckens (4,393,982).

Claims 1-4, 9, 10, and 18-21 have been indicated to be allowable and Applicant graciously acknowledges this indication.

## DISCUSSION

Applicant gratefully acknowledges the indication of allowability of Claims 1-4, 9, 10, and 18-21.

Applicant has submitted this amendment in an effort to clarify the scope of the claims and overcome objections and rejections to the rejected claims.

Claim 18's semantic and typographical objections have been corrected.

Claim 4 has been amended to depend solely from Claim 1. Applicant respectfully submits that this amendment to Claim 4 removes the rejection to Claims 5 through 8 as being in proper form because of multiple dependency. Applicant will respectfully submit that Claims 5 and 8 are now allowable.

Applicant has further amended Claim 11 to more particularly point out and claim the subject matter which Applicant deems to be the subject matter of the invention. Still further, Applicant has amended dependent Claim 15 to remove its multiple dependency and as such submits that Claim 16, previously rejected, is now allowable.

Applicant would repeat the arguments relating to the prior art as set forth in the prior amendment filed responsive to the Office Action of December 15, 2005. Applicant respectfully submits that the claims as amended overcome any rejection based upon the Kuckens reference in

that the Kuckens reference does not teach nor suggest serial dosing through repeated movements of a bellows in one direction.

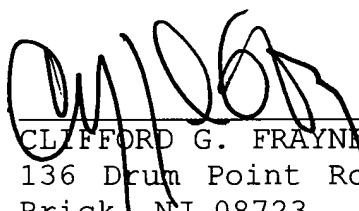

In light of the amendment to the claims and the discussion herein, Applicant respectfully submits that the claims as amended are in condition for allowance and a notice of same is respectfully solicited.

Applicant would respectfully request a telephone conversation with the Examiner after the Examiner has had an opportunity to review the submitted amended claims in order to discuss with the Examiner the Examiner's position regarding the amended claims in an effort to resolve any differences so that prosecution may be expedited.

Respectfully submitted,

NIILO KAARTINEN - Applicant
